

PRECISION METAL CRAFTS

Precision Metal Crafts offers a diverse range of services and solutions. From prototyping and reverse engineering to high volume production runs, PMC has the expertise to fulfill your manufacturing needs.

Industries We Serve

Metal fabricators
Automotive
Aerospace
Pipeline
Commercial
Agricultural
Commercial Transportation
Restaurant
Heating & AC.
Medical
Environmental
Off road
General Manufacturers

Why Precision Metal Crafts?

30,000 square foot One-Stop-Facility located on 2 acres of property

Employing the use of AutoCad and the industry's latest CNC machines

Experienced Engineers and a personal customer service rep

The Precision Metal Crafts Standard

Quality

Going beyond customer expectations in order to maintain the highest standards and tolerances

Service

Experienced engineers on top of a personalized customer service representative ensures a strong relationship

Efficiency

Utilizing factory automation: decreased manufacturing time and reduced customer costs

On-Time Delivery

Processing orders and delivering material to meet client deadlines

Capabilities

High Volume Manufacturing

R&D / Prototype

- Send us your idea

CNC and Conventional Machining

- CNC / Conventional Turning to 37" Diameter and 144" Length
- CNC Milling to 144" Length without Repositioning
- Horizontal Machining to 48" x 48" x 48"
- Precision Surface Grinding
- Blanchard Grinding

Complete Sheet Metal and Fabrication Shop

- Laser Cutting: 5'x10' Auto sheet load & unload table; stainless steel, aluminum, copper / brass, plastic, carbon steel, and MDF / particle board
- Flame / Plasma Shape Cutting: 108"x 240" (2740 x 6096 mm) Table
- Water Jet
- Press Brake to 120"
- Linegraining to 36" wide
- Hardware insertion

Fully Outfitted and Stocked Weld Shop

- MIG, TIG, Stick, Submerged, and Dual Shield Welding
- Positioning to 16,000 lbs.
